December 8, 2020

Dear Parent/Guardian of _____,

With this semester coming to a close, your student is in the final few meetings of the semester. Fall classes run through January 15, 2021 and will conclude with two exam days- January 13 and January 14. **Exams count as 25% of the overall grade for the course.** Further details will be provided regarding exam days.

If your student has earned a passing average- a D or better when Quarter 1, Quarter 2, and the exam are averaged together- he/she will earn the credit for that class. (Please note that earning the credit is also dependent upon your student satisfying seat time requirements. All seat time requirements must be met if applicable.) Students cannot miss more than 10 class periods per course per semester to earn credit.

For students in our LEAP state testing classes- English 1, English 2, Algebra 1, Geometry, Biology, and American History- the state LEAP test will be counted as the exam (25%) for the course. All students are expected to take the LEAP test if they have been enrolled in these classes, including our fully virtual students. The state tests cannot be given virtually, thus all students must come to campus to take the test. **If students do not test, they will earn a zero for their exam grade for the course.** Safety is important to us; the following provisions will be made to ensure the safety of all students:

- All temperatures will be taken upon arrival to campus
- Students will be spaced apart to the greatest degree possible in the testing rooms
- Students will test with their classroom groups, virtual students will test with only other virtual students
- All students and adults will wear masks, sanitizer and cleaning products will be available in every room

The anticipated schedule is as follows. Your student's teacher will provide additional information as we get closer to the testing window (January 6-26). Your student will test on one of the days provided in the window below. Please note that students need to bring their laptops and a bagged lunch (unless eating from the cafeteria) to campus on testing day

English 1: January 6-8

English 2: January 6-8

Algebra 1: January 21-22

Geometry: January 11-12

American History: January 19-20

Biology: January 21-22

Thank you for your continued support,

Danielle Yunusah
Principal
