

Coach Card for Completing the High School Universal Screening Document

Purpose: The Universal Screening Document is designed to assist ABIT members in identifying students who need intervention in Behavior based on SSBD results, Office Discipline Referrals (ODRs) or Suspensions.

Students names are listed in column 1 if they are on the Top Ten list for ODR's, have been identified as "at-risk" on SSBD, or have 2 or more suspensions. (Suspensions can be in-school or out-of-school)

- If the student's name appears on the weekly DEWS list, check all areas that apply in column 2.
- If the student's name appears on the monthly Top Ten List for ODR's place put the number of ODR's the student has listed on the monthly ODR print-out. (This information will help you to prioritize students.)
- If the student has been suspended, write the number of suspensions in column 4.
- If the student was identified as "at-risk" on the SSBD screening, place a check in column 5.

Decisions

- Prioritize the students that will need to be discussed at ABIT by numbering the students from 1 – 20, or more if necessary, in column 9.
- Place a date in column 10 to document when the student will be discussed at ABIT.
