JAMES MEZA, JR., Ed.D. SUPERINTENDENT July 18, 2013

To: All Principals & Account Clerks

Please be reminded that the Board's policy on copy machines requires that at the time you obtain a NEW copy machine, it must be either purchased or rented from a company holding a current Louisiana State Contract. This does not apply to any existing machines you are already using. Additionally, schools are no longer allowed to enter into any type of leasing agreements for copiers.

Attached is the current list of copier vendors you are able to use along with their contact information. There are several companies that may hold valid contracts that the Board has prohibited you from dealing with. You must choose your vendor(s) from the ones listed. Please note that these two documents are different – one is for copier rentals and the other for copier purchases. There are several differences between these two documents. Please choose the one that's appropriate for your use. Please remember that any vendor you choose MUST provide you with their six-digit State Contract number. This number begins with a "4". If this number is not provided and/or you are in doubt, please contact me at 349-7667 for assistance.

As an added piece of information, you may want to analyze your current maintenance agreement costs. We have found that in many cases with older machines, it is cheaper to rent newer, more sophisticated machines from the State Contract for an amount less than you are paying for monthly maintenance. Although you "own" the machine, your maintenance costs may exceed what you would be paying to rent a newer machine.

If you have any questions or require any additional information, please feel free to contact me at 349-7667.

Regards,

Toe Deckelmann

Director of Purchasing & Procurement
